ACRASTYLE LIMITED

JOB DESCRIPTION

Job Title: Electrical/Mechanical Fitter
Reports To: Production Supervisor
Salary: TBC
Hours: 37.5 (fixed hours)

Job Summary:

The Electrical/Mechanical Fitter is responsible for the wiring and installation of equipment into Acrastyle products such as Control & Protection Panels, AVC cubicles, Battery Charging equipment and Outdoor Marshalling Kiosks.

Responsibilities:

- Wiring and or assembly of panels, front sheets, wall-boxes, equipment racks and any other Acrastyle product to the required specification
- Liaise with the Production Supervisor, Inspection department and Engineering department
- Attending on-site visits to provide installation services to customers
- Providing feedback to the Production Supervisor and notifying any reasons that a job may not meet the required completion date
- Dealing with and reporting problems or shortages to the Leading Hands or Charge Hand.
- Attending various training courses in order to keep up to date with Health & Safety, Product Information or any other courses required to maintain skills
