

CONTROL & PROTECTION SYSTEMS

Following recent re-structuring, there is an immediate opportunity for an experienced "Project Planner", to directly manage the planning of new projects.

Project Planner

The successful applicant will have several years of relevant experience, managing and planning new projects, liaising with Contract Engineers/Project Managers and allocating resources throughout the company.

The ideal candidate will have:

- a minimum of 2 to 3 years experience in a similar role
- proven record in project management/planning
- Technical qualifications such as project management certification, etc
- MS Project expertise and/or Preactor, coupled with the people skills to deliver the plan
- experience in protection and control panel design and manufacturing would also be advantageous

The role will involve the inputting of orders into the company wide ERP system, allocating programmes and company resources. The project planner will be responsible for specifying project times and liaising with the commercial manager as well as individual contract engineers. The project planner will have overall responsibility for keeping projected times/costs as specified, particularly in regards to projects containing Penalty/Liquidated Damages Clauses.

There will be opportunities for advancement within the Company for the right candidate.

The position is full-time and in return we are offering a competitive salary, together with excellent holiday/sickness entitlement and after a qualifying period employees' will be entitled to a loyalty bonus.

The company operates a flexi-time system for office based staff and normal hours of work will be 37½ hours per week.

If you feel you have the necessary qualities for this position and would like to be part of our dedicated team, please complete a company application form which can be downloaded from our website: www.acrastyle.co.uk, alternatively, please contact this office to request an application form and once completed, please return to:
